UPDATES

Now Available: Cancel Trades Online

In response to investor requests, Guggenheim Investments now enables you to cancel your trades online at TradeRydex.com. Cancellations by phone are still available **until the phone cutoff time, as stated in each fund's prospectus**. In addition to online trade cancellation, other site enhancements also allow you to:

- Re-create cancelled trades
- View estimated gain/loss information and cost basis details by fund
- View fund prices for all share classes
- Navigate more efficiently with continued improvements to the look of the site

To learn more:

- [Review our Frequently Asked Questions](#)
- [Contact 800.487.9339](tel:800.487.9339) or services@guggenheiminvestments.com

Step 2: Select “First Time User” underneath the login tab:

Step 3: Now, select the top option “Individual Investor for Individual Account”

GUGGENHEIM INVESTMENTS

ACCOUNT PASSWORD SETUP

Please Choose One:

- I am an **Individual Investor** or a **Financial Professional** and I would like to set up online access for an **Individual Account**.
- I am a **Financial Professional** and I would like to establish online access to view and/or trade my clients accounts

Step 4: At the bottom of the trading disclosure, click the Accept Button:

Encryption Technology

Guggenheim policy ensures that all information traveling between our server and your browser is encrypted. The degree of encryption depends on the browser of the user. Netscape Navigator 4.0, Microsoft Internet Explorer 4.0 and America Online 3.0 all support 128-bit encryption (strongest security). If your browser is an older version of Netscape Navigator, for example, your browser may only support 40-bit encryption, which is not as secure. Newer versions of Netscape Navigator 4.0, Microsoft Internet Explorer 4.0 and America Online 3.0 are downloadable of the Internet.

Each browser contains an icon describing whether the connection is secure or not. If you are using Netscape Navigator 3x, a "broken" key icon depicts an insecure connection while a "whole" key icon depicts a secure connection. Netscape Communicator, Microsoft Internet Explorer, and AOL all use an "open" lock icon to depict an insecure connection and a "closed" lock icon to depict a secure connection. An additional method of determining if a page is secure is to look at the address. If the address begins with HTTPS (rather than the standard HTTP) the page is secure.

Secure Socket Layer (SSL)

Guggenheim is currently using SSL to transmit secure documents. SSL is a Netscape developed technology that allows for the transfer of encrypted code from our server to your computer. The following is a list of some of the browsers that support SSL technology: Netscape Navigator 4.0, Microsoft Internet 4.0, and AOL Web browser 3.0.

Firewalls

For additional security, Guggenheim has installed firewalls that filter Internet traffic preventing the unauthorized access of personal data.

If you have any question regarding any of the security features at Guggenheim please call 1-800-820-0888 between 8:30 a.m. and 5:30 p.m. Mondays through Fridays.

By clicking "Accept," you agree to all terms and conditions outlined above regarding trading online with Guggenheim. If you disagree or find fault with any of the terms or conditions outlined above, click "Reject" to terminate the application.

Reject

Accept

Step 5: Now, that you've accepted the disclosure, you can setup your ID and password as shown below:

ACCOUNT PASSWORD SETUP

Password Setup For Account Access

- Your password must contain at least 5 characters, and be no longer than 10 characters. It must also contain at least one capital letter and one number.
- Guggenheim Account passwords ARE case sensitive.

Account Lock Out

If you enter your password incorrectly 3 times when trying to access your account, you will be locked out of the system. If you are locked out, you are required to call the Guggenheim Web Help Desk (800.487.9339) to enable a new password setup.

User ID	<input type="text"/>	<i>ex. 012301234</i>
Account Number	<input type="text"/>	<i>ex. 012301234</i>
Social Security or Tax ID Number	<input type="text"/>	<i>ex. 123456789</i>
Email address	<input type="text"/>	<i>ex. joeuser@foo.com</i>
Password	<input type="password"/>	
Confirm Password	<input type="password"/>	

Create Password

Step 6: Tips: The User ID and Password, you will create. We do not assign those. The account number and Social Security number must match exactly for an ID to successfully be created. If the account is a joint account, the primary account owner's Social Security Number should be entered. On a custodian account, the minor's Social Security Number is what would be on file. Once you enter all the information, select "Create Password" at the bottom. Now, that that password is established, you can go back to www.traderydex.com to login. If you have difficulties, our Guggenheim Client Services Team would be glad to assist at 800-820-0888 between the hours of 8:30 am and 5:30 pm, Monday through Friday.
